**Areas of Interest** Environmental Sustainability, Global Health, International & Community Development, Social Entrepreneurship, Social Innovation

With its magnificent forested volcanoes, iconic terraced rice fields, teeming coral reefs, and ubiquitous temples, Bali earns its nickname as the “Island of the Gods.” While its ancient Hindu culture continues to thrive, Bali is also a hotbed of impact entrepreneurship. This blend of tradition and innovation offers profound lessons for addressing today’s global challenges. Students will deepen their understanding of social and environmental issues within the context of a developing economy, while gaining perspective on how social entrepreneurship can be an effective, sustainable approach to addressing problems.
